## Eat, Chew & Smile Naturally Again!

Implants provide many people with life-changing benefits, such as increased comfort & more self-confidence. Implants are a wonderful solution to a variety of problems.

Much tooth loss is due to a fracture of the root, decay of the tooth, or extreme bone loss often caused by gum disease. We can place the metal root, then attach a peg to the implant & a permanent crown.

Denture-wearers suffer with loose-fitting dentures, which are caused by the continual shrinkage of the gum & bone. Implants can be placed to support the dentures & the patient can once again feel confident when smiling, talking & chewing.

Many children are born without all of their permanent teeth. Implants can provide solid, cosmetic & long-lasting permanent replacements.

With a success rate of well over 90%, they should be strongly considered by anyone who has experienced tooth loss or loose dentures, or absence of adult teeth.

## Why Patients Love Dr. Banda...

*"I am a single mother of twin 9-year-old girls. I have gone to Dr. Banda for years before my girls were born & wouldn't think of taking my daughters anywhere else. Cranbrook Dental Care is a practice with a family feel & my kids look forward to their visits every six months! The hygienists are gentle & make going to the dentist fun. I like that everything is explained to me in layman's terms & our teeth are well taken care of for years to come!"*
