

YOUR SAFETY IS OUR TOP PRIORITY

DOING OUR PART
TO KEEP YOU AND
YOUR FAMILY SAFE

**TRUSTED IN THE COMMUNITY
FOR OVER 30 YEARS**

Prior to the Covid-19 emergency: Cranbrook Dental Care has always :

- Met or **exceeded** all regulations from the Center for Disease Control (CDC), OSHA and all other government agencies, and will continue to do so.
- **Sterilized and sanitized** all instruments and work surfaces on an ongoing basis using superior techniques.

Since the Covid-19 emergency Cranbrook Dental Care has also added the following services:

- Since coronavirus may be transmitted through the air, **the air in our office will now be sanitized twice a day.** The CDC has approved the use of hydrogen peroxide to kill coronavirus. The office will be fogged twice a day with hydrogen peroxide. Unlike harsh, toxic chemicals that are used in some offices, hydrogen peroxide kills coronavirus in minutes and then breaks down into water and oxygen.
- We have **reserved hours for seniors and immunocompromised patients.** We will fog the office to sanitize the air at lunch time and at the end of the day. Please schedule an early morning appointment or one right after lunch for a newly sanitized experience.
- Our **dental team will all have health screenings** each morning on arrival. Only the healthy are here to serve you.
- **Social distancing implementation** with our schedules being modified to minimize the number of people in the reception area at any one time.
- Our **patients will be screened** for health prior to their appointment time by phone and as they arrive at the office.

**Smile Makeovers • Sedation Dentistry • Veneers and Full Mouth Rehabilitation • Root Canals
